Overview
Logs
Republish your app
Configure how your app is published and who can access it.
Sharing
Suggested add-ons
Deep security scan
Security Agent combines LLMs with leading static analysis tools to deliver a pen-test-grade security scan of your project.
Run scan
Enable app uptime email notifications
Be the first to know when your app is down. We'll continuously check if your app is online and notify you via email if things go wrong.
Enable auto-reload
Automatically add credits when your balance runs low to avoid interruptions.
Set up
Monitoring alerts
New
Monitor your app's health and surface alerts. Changes save immediately. Uptime checks are managed separately. View more settings
Block publishing of critical vulnerabilities
Controls whether publishing is blocked when critical vulnerabilities are found in the security scan.
Enable analytics
Understand how people use your published app with privacy-friendly analytics.
Enable feedback widget
